

Bachelor in Electronics Engineering with Honours
 Bachelor of Engineering (Honours) in Electronics Engineering

Performance Indicators for Attainment of the PEOs

No	PEO	Performance Indicator
1	Graduates who are competent and productive in satisfying customer needs.	70% of graduates pursuing a career in related field
		70% of graduates involved in engineering design and investigation, research and development, maintenance and repair of machinery and other engineering-related job scopes.
2	Graduates grow professionally and engage in lifelong learning.	10% of graduates obtaining a master degree in engineering or related field.
		10% of graduates registered with professional bodies.
		30% of graduates attended trainings/workshops/courses/seminars
		10% of graduates involved in research works.
3	Graduates demonstrate professionalism in engineering practice and ethical conduct, awareness in sustainability issues and contribute to multi-cultural society.	30% of graduates aware of ethical issues, such as code of conduct and standard.
		30% of graduates aware of sustainability and environmental issues.
		10% of graduates holding higher positions as an Assistant Engineer, Senior Engineer , Project Manager and etc.
		10% of graduates involving in Non - Governmental Organization (NGO) activities.
